Box 246
Westport Conn.

Dear Mr. and Mrs. Dorr:

First I want to thank you both for the loving friendship you both have shown me during the long years - your loving interest in Al. and his condition has helped thru the years too - I am proud indeed to have had your friendship!

The days go by so quickly and I wonder now how I managed to do all these things I am doing now and still go forth to the Westport Mill daily.

What an inspiration on your parts to think of the tickets to the Russian Dancers - the Company and it's part in my "exit" party will be a happy memory but for you to think of such a delightful thing as a purely personal thing meant more than I can express. The beauty and precision of the dancers - the gorgeous colors - the artistry of the entire performance is lived over each day as I go about whether it is in the car or just around the house. Melba thoroughly enjoyed the dancers and every few minutes I tore my eyes from the performers to watch the expressions on Beverly and Debbie's faces - their ftrst real play in New York and I know it is something they will always cherish - bless you both - the girls' letters are here - even though we live in the same town we can't seem to get together more than once a week so there are always delays -

I will be thinking of you both "down Mexico way" during the holidays - my thoughts are with you especially Mrs. D. during this season-

Al. joins me in loving thoughts and years of happiness ahead for you both -

Florence K. Schwenk.
