Mrs. Trapp  
Cor Unum  
Stowe, Vermont

My dear Mrs. Trapp:

Nell and I felt that our experience in your home at Stowe was something we never shall forget. Also, on the way down we were reading your fascinating account of your life. It is most interesting to see how things came to you when needed and I have no question in my own mind of the efficacy of prayer and that it is possible to have things flow in a way one would not expect.

I am enclosing some brochures on the book and will be glad to supply you with an additional number if you can profitably use them. We are very anxious to hear that the book has been accepted for distribution by our government but gather everything having to do with governmental action takes considerable time.

Please give our warmest regards to your dear family and friends.

Sincerely,

John V. N. Dorr

Enclosures (ten copies of brochure)
