% The Ladies' Home Journal,

Philadelphia, Pa.

My dear Mrs. Houston :

The firm of Houghton, Mifflin Co., publishers of Andy Adams books have just turned over to me "The Outlet" -- a work by Mr. Adams containing remarkable action and atmosphere dealing with an epic of the old cattle trail.

Mr. Adams work is the most authentic record we have descriptive of those stirring times immediately after the Civil War. A period full of pathos mixed with romantic adventure.

It is the idea of the publishers to weave through this work of strenuous action a love story suitable for " movie " production.

I have been much impressed with the continuity of your stories -- a rare quality -- and a very necessary requirement for adaptation ~~action~~ adaptation

it is not always the slow
thinkers that fail in popularity
but the make shift of a slow thinker appear
in. — the public are not always taking the
trouble to analyze their dislikes — the failure
a fiction & a agnostic has caused many a
slow to take slides — the public therefore we
see many capable slow thinkers shelved for lack
of good nature.
