May 17th, 1926.

Miss Irena Khrabroff,
70 Morningside Drive,
New York City.

Dear Miss Khrabroff:-

I have your letter of May 14th and thank you for your promptness in sending captions for the pictures. I can see at a glance that they give just the material that I want.

I note what you say in reference to Miss Sipprell's desire that we will not find it necessary to cut the pictures. On measuring the pictures I find that the full page subjects are just the right dimensions for our page. The pictures that are to be used as half pages will, of course, fit properly in place without the slightest trim. There is only one case in which we shall print two pictures small size on one page that it may be necessary to fit them so as to conform to the shape of the page - but I am sure you will find our judgment and taste in the matter will be good. The pictures are very beautiful and we want to preserve them in their integrity.

Sincerely yours,

THE MENTOR

Editor.

P.S. We find ourselves unable to use all the pictures as planned, if we are to print an article of reasonable length about Miss Sipprell. As she is represented at the door of her studio, we are returning at this time the two personal photographs to make sure that they are not lost or damaged.
