Dear Dr. Porter:

Life Magazine sent us color slides of sixteen of the Feininger transparencies. I send them to you herewith. Of the sixteen, we have selected twelve which, in our opinion, are worth considering. These are in one envelope. In the other envelope are four which we did not think should be used for our purpose.

Perhaps it would be best for you to telephone me, with reverse charges, after you have had a chance to look at these pictures. I am going from here on September 15th to New York where I can be reached at my office, Plaza 7-9700, extension 612. On the 17, 18, and 19 I expect to be at my home in Princeton, New Jersey, area code 609 924-0007.

Sincerely yours,

Harold K. Hochschild
President

P.S. By oversight, Life failed to send us 3 or 4 summer pictures which my wife had selected. We are asking them to send these to us.
