Senator Edward M. Kennedy
Senate Judiciary Committee
Washington, D. C.

Dear Senator Kennedy:

For the Senate Judiciary Committee to confirm the nomination of Patrick Gray to be director of the F.B.I. would be an act of gross irresponsibility.

By his political activities in the Presidential campaign, and by his collaboration with the White House staff during the Watergate investigation Mr. Gray has disqualified himself for holding an office which must be aloof from partisan associations.

As a champion of good government and judicial impartiality I hope you will use your influence to prevail upon the Committee to reject Mr. Gray's nomination.

Yours respectfully,
