Mr. Edward Hale
6300 Cedar Springs Road
Dallas, Texas 75235

Dear Ed,

Enclosed herewith are 6 sheets of the 11x14 dye transfer paper F that I called you about, on which the coating is so brittle that when the paper is trimmed along the short dimension cracks appear.

I also enclose a mounted and a trimmed but unmounted print which exhibit this phenomenon.

These sheets of paper are from a box of 250 on which the number 65304-72823 1 is printed.

Thank you for your help in this matter.

Yours sincerely,
