Dear Mr. Porter:

I am enclosing six rolls of KODACHROME 25 Film which we've tested and confirmed to be ASA 25. I hope you will try some tests on this film and see if you agree with us that the ASA is indeed 25.

I also believe you will find this film has a slightly less warm color bias than your previous emulsion.

The three slides you sent us are enclosed. Thank you for allowing us to investigate this matter for you.

Sincerely,

A handwritten signature in blue ink that reads 'W. Scott Grover' followed by a stylized flourish.
