Dear Dr. Porter:

With reference to your letter of December 28:

I shall be glad to present an application from you to the Committee of Selection. Your letter gives a sufficient statement of your proposal and I don't want a formal application; but what I do need is a statement of your accomplishments from the date of your last application: a statement not only in the nature of a report of the work you did as a Guggenheim Fellow, but also a statement of your other accomplishments since the autumn of 1940.

With best New Year wishes, I am

Sincerely yours,

Henry Allen Moe
