Dear Dr. Porter:

We were thrilled to be asked to present a paper on Eliot Porter this November to a literary club at Illinois College. The Program Committee knew of our own love of and active participation in preserving several wildlife areas.

We have a copy of each of your books, but in order to best share your photography with an audience, can you give us some information on how we could borrow some copies of your work? Is there a traveling exhibit available?

Sir, it has been a deep pleasure to steep in your photography and your philosophy. Thank you.

Sincerely,

Bill and Martha Mitchell
