Dear Eliot;-

I was very sad to see the enclosed. It is tragic that these Enchanted Isles are being desolated with development.

The Stony Brook - Millstone Watersheds Assn. sponsored a Tour, managed by Academic Arrangements Abroad, Inc. 65 flew to Quito. After a couple of days to see a few of the archeological sites the joined the steamer for a ten day visit to the Islands. Sally and I would like to have gone but it came in March at an inconvenienc time. Both Tom Sutherland and Tom Cook went and also Dodo and Bill Scheide. they all took many rolls of Kodacolor and when they sort and arrange the best slides, a Tour Reunion is planned to which we hope to go. The Scheides took 20 rolls of 36 exposures. Then, there was an optional five days in Peru which many of them took. All were most enthusiastic.

Sally joins me in affectionate regards to you and Aline, as ever, sincerely,
