Dear Dr. Porter,

Here are your transparencies. I hope you will let us have them back. Also I would be overjoyed to receive the others you mentioned in your letter of September 22nd.

Yes I would like very much to get together with you on photographing owls at night in their natural backgrounds. With tapes and imitations this can often be easily done. Tapes work at times of year when the owls do not respond to the imitations.

Very sincerely yours,

Joe Marshall
