Dear Mr Seldes:

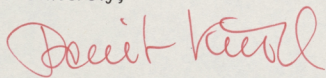

I am writing at the suggestion of Mr Charles S Barr, Program Associate at the Sierra Club to inquire into some photographs to accompany an article AMBIO is about to publish.

Ambio is the Royal Swedish Academy of Sciences' journal of the human environment and is a nonprofit journal with a circulation in almost 100 countries.

We shall shortly be publishing an article about Antarctica and Mr Barr has informed us that Elliott Porter has an interesting collection of photos on the subject and that you were his agent in New York. We would appreciate receiving further information from you as well as your price list.

We look forward to hearing from you.

Sincerely,

Berit Kind
