Mr. Eliot Porter
Tesuque Street
Santa Fe, New Mexico

Dear Mr. Porter,

I would like to take this opportunity to express to you how I have truly admired your photographs over the years. I feel your work is unsurpassed.

I am a professional photographer and my subjects are primarily wildlife and nature close-ups. I use the 35mm format exclusively.

I am thinking of getting into landscape photography. I am seeking your advice in selecting quality equipment. I realize I will have to use a much larger format than I now use. What equipment do you use in your photographic work? e.g. Lenses, camera, film, and lightmeter.

How would you suggest I become more educated in the field of large format photography?

I would really appreciate any information you can give me. Thank you.

Sincerely,

Daniel E. Sparks
