May 27, 1988

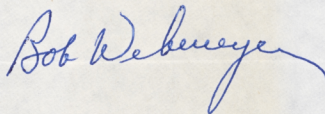

Dear Eliot Porter:

This is just a very brief note to let you know what a wonderful experience it was for my wife and me to share the beauties of Nature so artistically captured and expressed in your photographs that are now being exhibited at the Bowdoin College Art Gallery in Brunswick.

We have long been admirers of your work as seen in published works, but the dye transfer technique was a new experience for us.

Thanks for your gifts, and warm greetings from Maine!

Sincerely,

A handwritten signature in blue ink that reads "Bob Wehmer". The signature is written in a cursive style with a long, sweeping tail on the last letter.
