Eleanor Caponigro  
Eliot Porter

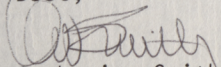

Dear Eleanor and Eliot:

I have been working on organizing the photographic material from Eliot for return to him. There are five items I am trying to locate.

1. The transparency used for the front jacket (Ruess arch). I think this may still be with the printer.
2. the transparency for page 41 and the prints for pages 39, 45, 49. Eleanor, do you remember at the proof stage when I did not send several originals due to an oversight, then sent them later. I think the above 4 were those sent you later. Do you still have them or have they been returned to Eliot? Please let me know what you know about them, so I can trace them.

I will be sending the remainder of the material to Eliot in the next day or so.

Best,

Catherine Smith
