Dr. Eliot Porter,
Rd. 4, Box 33,
Santa Fe, N.M. 87501,
U.S.A.

Dear Mr. Porter,

We are now preparing a book on photography entitled 'Exploring Photography' to accompany an Autumn 1978 series of further education TV programmes under the same title. The author of the book and presenter of the TV programmes is Bryn Campbell who would like to include the colour photograph on page 16 of 'Camera' (NO, 6) of June 1974 showing small stream eruptions at Coyote Gulch, Utah. (See enclosed copy slide for identification).

Other contributors have agreed to a reproduction fee of £40 for UK and Commonwealth rights for the book, with an option for additional rights to be taken out if required as follows:

1. Europe and the rest of the world excluding USA £20 extra.
2. " " " " " " plus USA a further £20 extra (a total of £80).

The fees for use in the TV programmes are being separately negotiated by BBC TV.

I urgently need to know if these terms are acceptable and hope that you will be interested in co-operating with us on this educational project.

Yours sincerely,

Desmond Green.
