Dear Mr. Porter:

In 1965 we published the textbook Biology, by John W. Kimball. Included in the text was the following material which you so kindly granted Mr. Kimball permission to use:

**Black-and-white conversion from your transparency  
Ek 53-318 (maples and beeches, Bear Notch Road, N.H.)**

We are now preparing a Spanish translation of Mr. Kimball's text. May we reprint this material in the Spanish edition, and in any future editions of the book? We should be most grateful to you for permission to do so. The proper credit line would, of course, be included in all cases.

For your convenience, a release form appears below. A duplicate of this letter for your files and a stamped envelope are enclosed.

Thank you very much.

Sincerely,

(Mrs.) Emily P. Springer
