Dear Eliot:

It was good to talk with you--I hope you aren't
in the dark room all day.

In Ansel's Portfolio III the following stamp was
used:

PORTFOLIO III
(Yosemite Valley)

ANSEL ADAMS

Print No. of Set No.

TYPOGRAPHY AND ~~XXX~~ CASES
COMPLETED 1960

You may want to have it the same since Portfolio I
(The Seasons) needs the above information. I noticed that
between each plate there is a plain sheet of paper fairly
heavy. Do you think this should be the same as the front
piece as for paper or do you care?

I told Bruce all about your timing etc., and he
agreed with us that a few of the pix that you think best
will be good to start off the Review people. Evidently
Dave got carried away with the quantity, but he probably
has reasons for the ones he chose.

As for the color of the cases I told Bruce of this
and we are having Columbia Mills send you a sample book (we
have only one) so that you can see what is available.

Bruce talked with Dave on the phone in NYC about
your schedule. I think DB will be in touch with you on
the NY visit etc.

Please give my regards to Aline.
