Dear John:

I have checked over all the transparencies and separations that you returned to me and which you insist are all I ever gave to you, and find that one set of separations for 67-483, "Sculptured Rock, Marble Canyon, Arizona," is missing. The transparency, however, was returned.

I believe that the transparency was used and reproduced by Stewart Color because it had attached to it a strip of plastic.

I don't question your statement that you have returned everything you are holding for the Portfolio III. What I wonder is, does Stewart Color by any chance have the separations for that transparency? I would appreciate your inquiring about that.

I have searched my files for the separations and they are not in my possession.

Yours truly,

Eliot Porter
