Dear Mr. Porter:

Thank you for your prompt reply to our request concerning the possible use of your Sierra Club photographs in our biology text.

I will inform our author of the conditions involved. Though we would like to use many our format will only permit the use of one or two photographs. As you suggested, we will make our selection from the Sierra Club books published. We will be in touch with you in the near future concerning our choice.

Again, thank you for your assistance.

Very truly yours,

Deborah S. Lipman
Photo Librarian
