Dear Eliot

I have had a conversation with Charles Belding of Graphic Arts. They are primarily interested, as you can see from their catalog, in regional publishing. Their royalty rate is low, a dollar a copy on the first 10,000 but, on the other hand that is a minimum first printing and they generally go back with a minimum reprint of 5000. An author would be guaranteed a minimum of \$15,000 on such a printing history. I spoke to him in particular about Antarctica to which his reply was there are no people there.

Any news on the retrospective?

Yours,

Timothy Seldes
