July 26, 1971

Dear Eliot:

I'm calculating you'll be leaving Maine end of this month (when I start off for there for the month of August) so I don't think an answer to the enclosed letter will be much delayed. Froehly talked to me last Friday about dealing with TIME-LIFE about a couple of photos, said he had been trying desperately to reach you and that matters had now reached the point where he had to do something--so I told him to go ahead and negotiate and to let you know what happened.

He also spoke about another request--and I pass this on for you to answer. I am writing Armstrong to say he will soon hear from you, that you are in transit. His letter was evidently lying in a file--Mr. F. said he was new there, that the man who dealt with these matters had evidently just been tucking stuff away. Some outfit. Hope you had a good time in Maine and I'm sorry you are never there when I am

all the best

Diarmuid
