Dear Mr. Russell:

Sorry to keep writing to you about this miserable contract business with the Sierra Club, but I received the letteres enclosed with this since I last wrote you. They are self-explanatory and illustrate the general discontent with the Sierra Club proposals.

The changes Ernest Braun wants made are even more drastic than the ones I asked for, and Philip Hyde objects most strongly to conveying all right to his photographs to the Club. In this I agree with him entirely.

Yours sincerely,

Eliot Porter
