Nov. 5, 1980

Dearest Bu,

Your letter and "The Greek World" arrived. I am so happy to have it. Do you know, that Greece is really my dreamboat? I believe you really caught some of that unbelievable light which I have experienced nowhere else. It is fascinating how your love for "nature" shows in the most strong pictures. For most Photographers the trees and plants and grasses would be decorations at best and in some cases disturbing superfluities (?) but you are wonderfully democratic about it and give nature equal rights. For instance pp. 99 Priene, or pp 119, 95, 88, 87, 53 - - - and many more! I love the Delphi views, but Delphi means very much to me. I am really grateful that you send me this lovely book and full of admiration. The text will have to wait a little but it seems very good from a slight glancing at it. How terrific do your Tibet - Mongolia plans sound! You wish I could see what you did so far. Ever coming East? (Tests have shown that N.Y.C. has the best drinking water. Better than Perrier!) Chihuahua might be interesting! I am a bit skeptic about an Yffi publication, as you know. But it would thrill me, if it happened. A few days ago I looked thru my contact prints.

and they are sprinkled with Psters since ca. 1939!
Lovely pictures of you both with a naked Jonathan
(who now will write a book!) Also, you arranging the
camera for bird photography. It already resembles
another series ca. 1957 in Arizona when you were
after a cactus wren, who, smartly, bored an exit for
himself, so he would not have to meet the lights
again. You were so baffled, because you saw only
entering wrens!

I am glad Aline is stabilized. Is this loss of height
a sinking together of vertebrae? Give her my love

Lots to you

E.
