

Dearest Eliot,

It was so nice to talk with you. Since then your letter came. I am delighted about your opinion of B. Klemms book! And now the Tffis came. Many of them I did not know or recall. Most of my favorites are in. Some of my unfavorites too. I was so immodest to write E. A. on 3 or 4 where it was missing. About 58-3 (ceiling w. dove) I am not sure who took it.

I wonder if they are already arranged in their final sequence? — I hope the horizontal ones can be put vertical?  Yes, it could be a very nice book! Yes, I believe it is in the

making. In When Barbaras book was being printed she got some advance notices. (like the booksalesmen get) Will we too?

What does "flopped" mean on pp. 83?

I am truly impressed about your printing enterprise!

Yes, all the stuff one accumulates is a burdensome Nuisance!

Spring is here too!! How generous Nature is with us ungrateful destroyers.

Much love B
