KEN KANTO

Dear Scott,

Greetings and salutations! How does it feel to get back in the groove of school. Like hell, I bet. I am already looking forward to your return. Exactly what day are you coming back. O.K.? you remember my telling you about my cousin's guitar (electric). Well I got it. It is cool as hell! I crave the sound it makes. Right now I am using my tape recorder as the amp. It works well enough for the time being. The funny thing happened last night; while I was tuning in the volume and treble & bass and all that shit, I seemed to hear some music coming from the room, but my radio was not on. Well as it turned out, somehow when the cord going from the guitar to the recorder touched wood the radio station KFTZ would come in. It would come in very softly; but nevertheless, it would come in. It has not happened anymore though since then.

Just to say something, last night my big bird was up enough to drive a TR-3. (clutch and all). Most of the

clutch action was used by my foot. It felt kind of odd to be diving again but nice.

Notthin' much has happened since you left except Larson has been coming over fairly regularly (every day). And we do go dickin' around. So I am finally getting out more.

O h & I think Stuart has something on his tape I said right after you left. get a hold of it and record something and send it here, if you have time. I will answer and return it immediately. I know I can play your recording on my recorder, but I am not sure if you can receive my recording. We'll try anyway. Tell me if it comes in if we ever do record back and forth.

I've started working out with weights again (while sitting or lying down). I only do arm, chest, and stomach exercises. I am still on crutches, DAMN IT!

That's all for now. Write SOON!

Your Esteemed friend,
Len
