That's a good deal about the tape-recorders. I wish you would send me something and tell me what speed it takes to play it. There are a million recorders in the section, maybe yours will take a different speed that I can get ahold of.

I just got through accepting a bid to kappa sig, I hope I will enjoy it (oh! no! I'll be Bill's frat. brother.)

We've be going through spring training
the last 3 weeks, and this is our last week

Boz! I'll sure be glad when Saturday gets here and we'll be through with football. Last week I got hit so hard my eyes got crossed.

Will you be back for Easter? I think
we're gonna make that trip ~~back~~.

Aculepeira I can't spell

The Mardi Gras must really be a
blast. The best part seems to be to
go watch the niggers tear hell out of
each other with those picks.

Not much else has happened here,
except a B-58 exploding at Carswell last
night. Boy! you should have heard the
explosion and ~~the~~ seen the flames jump.
I thought the Russians had attacked.

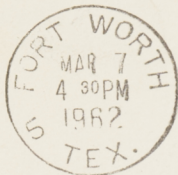

Well I'm got to go get my brains beat
out in football. See you soon.

P.S. am enclosing a typical, low-rent,
picture of De Hart & d. I think it is ~~very~~
funny, but my parents don't share
the same opinion. See what you think of
it. Send it back in the next letter and be
~~sure~~ scene and not lose it. I want to keep it
and show my ~~grand~~ grandchildren what I did
when I was their age.
