Stuart,

All right, I know that I deserve to be whipped with a wet noodle for not writing sooner but gads I've just been swamped what with one thing and another. I'm just dashing this short note off tonight and I'm afraid that it is a poor excuse for a letter.

First of all, I felt so badly about Bob flunking out of school. But Charlie tells me he is working on a paper and going to school on the side. Maybe this will be the best thing for him in the long run - anyway lets hope so.

I had a marvelous Mardi Gras! I had an invitation to the Krewe of Comus Ball and it was just out of this world. Did you see the Comus Ball and Tulane ect. on Today over T. V. several weeks ago? Morty gave a fabulous party down in his apartment in the Quarter and even wasn't stingy with the food and drink! Philp invited me to the S. A. E. formal and party which was lots of fun and what with one thing and another we had quite a time.

Easter is just around the corner. The "all American parents" are descending upon me en mass over this period. We are going up to Pas Christian and Biloxi, sight-see, paly some golf etc.

Are you pretty well settled at T. C. U. ? And most important are you getting you're writing done? I think it was a noble effort on your part to make this sacrifice and at a time like this I think it will be a great help in every way for you to be home.

Listen Stuart, Philip doesn't think he will be able to return next year and we've been rather counting on rooming together all year. So when I put down my names for next year's room-mates I put yours down too. His parents are having moving problems etc and now he is almost sure he won't be able to come back. So if you still think you are coming back drop them a line at the housing office or put my name down on your housing application. I applied again for 603 because its so perfect.

This good Mexican friend of mine, Leopoldo Villareal F., (Pops is about the second biggest man in Mexico) got kicked out last night for pulling a gun on someone. Gads all my firends are pulling up stakes and moving to greener pastures in one way or another.

I still have no big plans made for this summer except a trip to New York. I do wish you could hop up to old Galena and stay a couple of weeks with us.

Must get back to Dr. Thompson's star class.

As ever,

Mr. Stuart Gentling
