

Dear Stu,

Glad to hear everything is fine with you. I just got word from Tulane that I can attend summer school so it looks like it's New Orleans for the summer at least. Ronnie is staying for summer school too so he and I will be rooming together. About your problem with Jim Gundry; I'm all for rooming together next fall if I make it this summer, but rooming with Jim really wouldn't be so bad if you know what I mean. All kidding aside, Jim's not too bad a boy and if worst comes to worst he could make a good roommate. (Besides he's got good decorations for his room) I'm glad to hear that you're coming back to Tulane. T.E.U. is good for a semester but not to graduate from. I really feel that this semester out of school has helped me a great deal. I've finally found a profession that I'm very interested in; News correspondence and broadcasting. The Evening Star owns Channel 7 here in Wash, D.C. and after I get out of college (I hope) I plan to work here.

I'm also getting out of business school if I get readmitted in the fall. I'll take A+S for me, and some courses which I hope I can do well in. I'll probably arrive in N.O. around June 1st so if you're in the vicinity come and see me. I also am still planning a trip to Mexico with Ron after summer school. How about you? My Spanish has improved thank God. Maybe I'll be able to pass 201 this time. I'm going to take English 202, Economics 202, Psychology 103 and some other course in summer school. Boy do I have to do well in these courses. Well at least I'll have time to study them.

Had a great weekend last week. Went to Skinner weekend at the U. of Penn. What a weekend. Stayed drunk both days and had a ball. Brought a

date up from Wash. who was really sharp. Next week
end it's Penn State's hell week and I have an
invitation from a KE to stay there and think I'm
going. Might as well get it all out of my system now
before summer school.

Well, I'd better get back to work. Have so much
back work to do. Hope to see you soon. Write
when you get a chance

Bob.

P.S. How's your sister and her boyfriend doing? How's Scott?
