

Sunday Nite
7/22/63

Dear Stu,

I went over and talked to your mother today and I read your letter and got your address and so here is a letter. Since I don't use an ink pen too much and I'm sitting in bed I hope my hand writing is legible enough for you to read. I have got lots of B. S. but since I'm not too good at organizing here it is as it comes to mind.

Mrs. Mackin comes home tomorrow. — I think that's all that needs to be said about that.

I've gained all my weight back, plus a little and so while I was over at your house today I got my sit up board. I weigh 198 lbs now. Surprisingly my waist is only $\frac{1}{2}$ inch bigger. I can't figure out where it has all gone. Anyway I'm going to keep on eating and just exercise and see if I can't keep my weight and loose some inches in the waist.

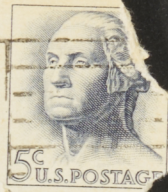

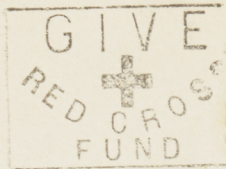

This last Friday night (20th) was the deb party of the year. I think I told you about it before you left. The McClung's gave it. Anyway, rumor had it that Steve Allen was going to be there. Well I just about dropped my rocks, but like I say it was just a rumor. Still though it was a hell of a good party. Stan Kenton's orchestra played till 1:30 or then Bud & Travis & they are folk singers, entertained until 6 o'clock that morning. They were real good and having as hell.

I just got through watching the Dulane & DeFas game on the David Royal show on T.V. He said ~~the~~ thought Dulane played a heck of a good game, and I'll have to agree. I was almost going to come until I heard about the party and it sounded too good to pass up. Now I'm thinking about coming down to see the T.C.U. - L.S.U. game — maybe — I'll let you know.

School started last Thursday and so far all my classes and teachers are pretty good. I talked to Tom Wright the other day and he said he had a hell of a good summer so I can't wait to hear the details. Well I've overdone myself I think and so I'll ~~do~~ close, because ^{I'm} ~~it's~~ getting tired I'm beginning to snicker, so write some good B.S. to me

Buck

P.S. Send me your zip code number. I want to see how much faster it is. Mine is 76107
