Dearest Toad -

It was so good to talk to you yesterday. Really don't have much news, but here goes. Mailed you trunk this a.m. so you will be getting it soon. I'll take your portfolio to Blanche and have her wrap it in real strong brown paper.

I feel that you really like your room and that your whole set up is a happier one. Now I would love to see your parrot. Care laughed her head off when I told her you said that it was 104 years old. You did say that did you not?

Suzie's kidney infection is much better but have to take her back to Dr. Compere on Monday.

We are having the most gorgeous weather - not hot - not cold, bright blue skies - you know.

Did I tell you that a decorator from La Jolla Calif. offered me \$1000 for the Turkey. Of course I didn't take it - was I wrong?

I took Lew + Suzie out for dinner last night. Russ has been gone for three weeks and I think much as she drives him crazy that the house is lonesome.

Grandma J. called on Sunday - she wanted your address. She is fine and anxious for me to come home. Of course I want to see Suzie through the treatment she has to have.

Dad is very busy buying race horses - He spent a week in Lexington Ky. to look them over. Sounds about as sensible as the rest of his purchases. Caro and Evz are going to pick me up for lunch - so must hurry.

My dearest love to you as always. Guess I'm about the grandest Ma in the ward.

Stay well -
Mother
