

Stuart - First, before I begin - my address is Box 31, New Dorm-, Golden
Be sure and put in the "New Dorm" or I don't get the letters until about a week late.
Right now I am in Military Science (R.O.T.C.) which is, of course, a pile of shit. My grades
this semester are good as hell so far. I have an A in Math, Orient, and Chem. a B in
Engineering, C in English (I'll get an A or B) and ROTC and an A in Life Saving.
The tape herein is read to play and a little more news is on it. I hope you have your recorder
there, but if you don't, send me back the tape. When you get thru with the first side, try
the backside and see if you remember that conversation !!

I have been considering having a double-barrelled 12 made for me and I
wonder if you know anything about actions. I want exposed hammers and a double
trigger (an old action) but I want a good action that can chamber magnums. I want
to get a good set of barrels with vent rib etc and a cool looking stock. If you know
where I can obtain such an action, let me know.

It sounds as if you have turned into a low-rent, however, your typing is im-
proving - only 13 obvious mistakes !! I guess I'll probably be up here for at least half the
summer, but I'll have a little spare time. See you soon - JSX

Play the side
with the ink mark
first.
