Nashville, Tenn.

Dear Stu,

Just a short note to tell you all my troubles. I dropped out of school to have another operation and surgery was performed two weeks ago today. It looks like maybe I will have a stable joint after this. I've hope so. They have got me flat on my back and strung all up in stumps, pulleys, wires, and springs. Perhaps after another week I will be able to leave.

How did Mardi Gras go? I was hoping I might make it down but all this stalled my plans.

Have you seen Sahel? You did know he was back in architecture at school. Should get through this time if he will stick with it.

Please let me know when graduation is, I want to come down and see you, Bob, and Ronnie get the old degree. Please tell both of them hello for me.

I've to go. Sorry to be short.
Study hard and be sure and write back.
Your friend,
Charles
