Charles F. Sullivan
Eden Isle, Arkansas

Dear Stu,

Well I thought I would try to get you to write me a letter just one more time before I send you a bomb in the mail. As you can see from the letter head we are now living in Arkansas so I rationalized that you didn't know my present address so I should send one more "talking paper."

Did you graduate from Tulane this spring? You had said something to me about going to Law School. Are you still going? I had hoped to come down for the graduating ceremonies but I had to help move all our belongings down, so I should say up, here to Eden Isle and then hustle to Jackson, Miss., to sign up for summer school. Since I missed the second semester of last year I had to do something to make up a few hours. I got out of school the 15th of last month and have been working at the Isle since.

This Isle is unique for this part of the country. The president of First Pyramid Life

Insurance Co. has taken this peninsula that juts into Greers Ferry Lake and developed it with close to \$8 million dollars. This figure does not include the amount invested in our Inn and restaurant. We have a beautiful golf course, tennis courts, marina, and some mountains that take your breath away. They aren't the craggy type but are covered by trees and foliage. All of these "mountains" come right straight down into the water. In a few more weeks this area will look like it is on fire with all the leaves changing color.

I guess I had better close for now. Perhaps I can expect a return letter? Knowing you I really doubt it but no harm in trying.

your friend,
Charlie
