Dear Stuart,

Ah, so much to tell you but I think I'm in trouble

①. Merrick Brants bought the landscapes and first said she'd buy Scott's Church but I told her she could not pay it out. She then said she'd buy your landscape for \$50.00 per month. I said all right and then a frog jumped up in my throat and a nice voice said "I think Stuart said he wanted cash for that painting" so I may be in trouble and if I am I'll just have to dig the money up and give you the full amount.

②. Shirley Holmes is a doll - she bought the "Bugs". That is what this check is for.

Now then for the "poop": The show went well - lots of people approx 300.

Have several bites on the "Quail" and the drawing. Everyone like your work very very much and jabbered ad jabbered about you and Scott.

Stuart - anytime you want to phone me just go right ahead and call collect either at home at night BU-12866 or here in the daytime. I was so worried about selling that Landscape to Merrick on time without your approval that I didn't sleep for two nights and I tried every way in the world to phone you to no avail. So if you don't mind - do call me about this matter.

What you had been here.

Hope to see you soon and do call me collect.
