ROCHESTER, MINN.

Dear Stuart :- Can't understand why
it took four days for an air mail
letter to reach me from Austin. Hope
this one flies faster going down hill.
Am so proud of you and Scott making
your own way in school. Not many can
do it these days and more power to you.
Will be happy to give a boost and
don't cramp your balance in trying to
hurry to repay me since you want this
on a business basis. I would never
send the Texas Rangers after you. I'd
come myself & we could order snails.
Ach - Am just recovering from a
bad chest cold. Have been house bound
for two weeks. Peter & J. came to see
me & I got a good chest exam & was
ordered to stop smoking for at least two
days. I almost accomplished it. Since
I interpreted it as two cigs each day
for two days but didn't tell Peter.

He & I made me a big pumpkin "Jack O
Lantern" that I put on the balcony Halloween
night. He was quite confused when he
first started his work but is in love with it
now. J. is working at St Mary's where Peter
works. They lunch together there in cafeteria.
She teaches two classes of student nurses.
They are both so happy. She is delightful.
Am going to their place tonight for dinner.
They have a new Hi-Fi to show off. I talked
to her last nite & she said they had had a
long letter from your dad. He owes me a
letter. Last time I heard he was well &
said Mr Gootch gives him all his cares but
tires easily. Peter has been asked to be
the hr for the Hockey Team game tomorrow
night. Hope no one get hurt badly but he
will have his black bag with him. We
had our first snow yesterday but the
sun came out and took it all away.
Kirk & Colin like Ripon very much. Kirk
will graduate & is applying at dental
schools. Greg also graduates & will take
post graduate school somewhere. Guess
my grandchildren are becoming men
and women. Make me quite aged too.
You did not inclose your address so
will take this to Peter's tonight & ask him

for instructions about what to do.
No one home there now so no use in
phoning. It may have your address.
You must not drive without Ins.
I would love to see some of your
art work. Watch your income tax
requirements with an eagle eye &
don't get in the terrible jam that your
dad did. Am glad you will be an
attorney. Maybe some day you can
bail me out of the brig. I will depend
on you. Have everything in the bag
then with Mr. & dentists and now an
attorney. Have three nurses who
married into the family. Now need a
good cook. You may apply (no snails
please). Will be anxious to hear if you
get this letter.
