

109 E. Twenty Ninth St.
February 17, 1966

Arthur,

Well you must be extremely
bored with Leo to drop me a note.
Of course anyone with any foresight
or Native intelligence would have
been aware of the fact that you
would be. Arthur, if you would
have faced the fact long ago, that
you are somewhat different
than the old-American Klunk-
head prototype that you have so
long admired you would not have

worrying about its social acceptability. Mr. Lates life of Lope Gaudil realize that no one admires the typical dumb ass except his counterpart.

I am finally getting settled here in this damndable metropolis. Have taken this apartment just off Park Avenue out of desperation as when arrived was supposed to live with Manuel Trellis (New Orleans) Cigar family. Will have to leave soon though or just latine.

Complately wasted a year in Law
 School. No one but either a Money
 Hungry aggressive all American
 or a deeply erudite intellectual
 would ever pick law as a chosen
 vocation. Its an utterly completely
 Ghostly field bathe ethically
 and otherwise, senseless you are
 dealing in purely a set of foolish
 values which seldom occurs!

You are an artistic person
 by Nature and this highly commendable
 fact you might as well learn
 to be proud of instead of

4.

My one love in New York is Christine
Wade. I met through
Lynne Lawrence and Priscilla Jordan.
They have a plantation in Tunny-
side, Mississippi thirty miles
South of Memphis. Keep an
apartment here during the winter
at 845 Fifth - just a few blocks
from here. We see a great deal
of each other - she is a gorgeous
gal with great personality. Ride
on weekends at their farm in
Connecticut. My parents were

investment family and working
in this firm on St. Charles
Avenue, Philip is in the army.

My family and I spend
the Xmas holidays in Bermuda,
Barbados, Martinique. St. Thomas
and had much fun - great climates.

Hope to work here during
the summer and go to summer
school of the school. Ten days
the other half and despite the
first half of the school. But
(Guess) some progress is being
made - something rubbing off of hope.

very pleased with her when they
are out of mas — so ? !!

About the common-denominator
we have socially: Sam, Les
graduated and is considering the
Marine (God forbid), Sam Street,
the architect, Les a marvelous
position in Toledo, Ohio and stops
out here occasionally, Peter
Chriber, the German German is
doing and standing work in Les
second year at Tulane Law
and living in Metairieville
or rather with a prominent

So pleased Scott is doing such
 Noteworthy and splendid work.
 Anyone spends much more
 easily in that element in which
 they are happy content and com-
 fortable - take heed.

As to your lost comment
 I somehow think contact was
 lost long ago - yet still
 and always appreciate hearing
 from you.

Most Sincerely,
 Fred
