

March 10, 1995

Dear Scott and Stuart,

We are finally back home after this last marathon trip. We saw a lot of people in L.A. - most notably Oliver Stone but also people at U.A., Spielberg's co. and Redford's - Everyone has expressed great interest and is waiting for the screenplay and/or book. Oliver wants to come visit in Aug. He is working on a Nixon movie right now. Carmen Parra says to tell you that the friend you gave your book to, a long time ago, just gave it to her about 3 weeks ago. She is very impressed and hopes you will come visit. Jorge Alberto Lozoya is now head of the Film Inst.
