Stewart:

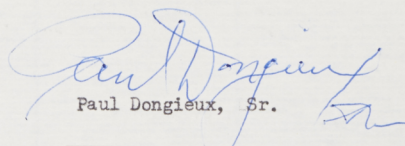

Attached is a photo of a handsome dude that I met while in Texas a few days ago.

Seriously, all of us appreciated the time that you took showing your works of art and you have every reason to be very proud. I am looking forward to hanging the print that you gave us, the painting is in the frame shop just now. I selected a nice frame, one that would do the print justice.

I was very surprised to read the write-up in the Dallas Times of the Bass Museum in Fort Worth, as a matter of fact, I have removed it and it is in my file along with all the other materials that I gathered while in your great state of Texas. As a matter of fact, I should have a dual citizenship of Mississippi and Texas. I spent a lot of time in Texas during the service such as Paris (Camp Maxey) Abilene (Camp Berkeley), Normoyle Ordnance Base (San Antonio and lastly, Camp Bowie (Brownwood) I plan to vote for Bush, hopefully he will run for President.

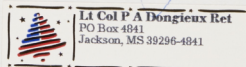

I am looking forward to the Audubon magazine issue that will have some of you and your brothers work of art.

Thanks for your hospitality.
