Dear Stuart and Scott,

I got your names from Nikolai Grube, who thought I should contact you. I am an architect in Austin working on a house here that is inspired by Maya architecture. The house is currently under construction, and we are now working on finishing out the interior spaces. The clients, Bill and Bettye Nowlin, are quite serious and enthusiastic about doing things well. Nikolai is helping us with iconography and glyphs that are being carved in stone in various places in the house.

Inside the house, in a cylindrical space underneath an observatory, we want to have a mural painted on the walls that would be in a Mayan style. I realize your interests are in the Aztec, but Nikolai speaks highly of your skills, so I wanted to ask if painting a Mayan mural might be something you would be interested in helping us with? Or, perhaps, could the Nowlins commission you for some other work for their house?

We would greatly appreciate your consideration of this project. You can call me at 512-478-7316, or fax me at 512-478-2506.

Sincerely yours,

Paul Lamb, Architect
