RE: Bird book.....Artist edition

Stuart, sorry for the delay in getting you these prices....took for ever to get prices from Japan on the silk.....

125 casebound books @58.00 ea.

250 casebound books @43.00 ea.

This is the total on the books except the inbound freight on the book blocks from Austin.

I'm not charging anything for the prototypes but the costs on the big ol' die is 550.00 and the costs on the other leathergreen stuff...is 280.00 plus freight....

Let me know asap as I have to order the stuff....

If costing get's real tight than we might try and use a manmade leather....not quiet as nice but cheaper.

Myers
