And Scott are doing. And please give
Nancy my best. I was happy

TEXAS PRAIRIES

The prairies shaped the American experience. Home to bison, a way of life for Native Americans. Here, settlers found a fresh start in a new land. The American character took root in the prairies.

The tallgrass prairie once stretched from the Texas Coast to southern Canada. The endless horizons and vast openness of these grasslands are central to our American heritage. Yet prairies, like wild bison, are almost gone. Once the basin of an ancient sea, Texas prairies nurture extraordinary biological diversity and are home to a wide variety of native plants, animals and birds. The Nature Conservancy of Texas is working to conserve this priceless natural legacy.

Clymer Meadow, at 700 acres one of the largest and most diverse remnants of North Texas' Blackland Prairie, provides habitat for globally imperiled grassland communities, a rich collection of wildflowers and many birds.

Clive Runnells Family Mad Island Marsh Preserve on the Texas Coast protects more than 7,000 acres of coastal prairie for a tremendous variety of bird species. An extensive educational outreach program is based at this preserve.

Galveston Bay Prairie Preserve in Texas City is home to one of only two remaining wild populations of the Attwater's prairie chicken, one of the most endangered birds in North America, and is a model for compatible development.

The Nature Conservancy of Texas is affiliated with the international, non-profit organization The Nature Conservancy and is supported almost entirely by private, tax-deductible contributions. To learn more, please contact: The Nature Conservancy of Texas, P.O. Box 1440, San Antonio, Texas 78295. Or call our North Texas Region, (214) 871-6052; Houston office, (713) 524-6459; or State Headquarters in San Antonio, (210) 224-8774.

Look for us online: www.tnc.org/texas

to finally meet her.
Take care, and hope to see you
again soon. Shelly Supanek

Dear Stewart,

I really appreciate your coming to Dallas and giving our local Audubon chapter such a great presentation Monday night. Everyone was truly delighted by you ^{yourself} and your program. And how generous you are to have given everyone a signed print! A great artist and raconteur, you are kind too. Thank you, thank you. And yes, I am a fan. Please keep me posted on what you
