Dear Mr. Gentling:

I have faxed the permission form attached about a week and a half ago or so for your signature. I have tried to call you several times within the last week or so but was not successful in getting in contact with you. Your phone keeps giving me a busy signal. I was wondering if you could please sign and fax the permission form to the above number. If for any reason, you have questions, please do not hesitate to contact me by the above number. I am getting ready to send out all the materials needed for the book to the publisher by Friday, May 10th, so I would appreciate it if you could please fax me the signature page by Friday. By the way, I have your name down on the list of names to whom we are sending the book to after the book gets published.

Thanks again for your help in this.
