Helen Campbell Alexander

Dear Stuart,

Following up on our conversation in May at Tobin's dinner, I was wondering how I could get one of your books with the reproductions of your field of Texas birds. They are such wonderful images and having something a little easier to look at would be great!

I was also wondering what you charged for commissions. I love the picture you did for Cira of the barn owl and green jays!

Hope all is well with you.
We are now the desert
and give you the best!

Yours.
