

11/16

Dear Stuart,

I have Received The beautiful book and fabulous prints! Many thanks. I have not yet had time to sit down and read the text, but look forward to getting into it.

As our conversation was quite some time ago or my letter whichever mentioned "Commission", the thought has departed. I'm not sure what I was thinking at the time, but hopefully brain cells will kick in and bring it back front and center! At that stage we can visit again about it!

Again, many thanks and
I look forward to seeing
you whilst in TX at some
point in the near future.

Tons.
Helen
