Dear Stuart,

It was a pleasure talking with you this morning. I'm very excited that we will be able to reproduce your artwork as it should be seen—crisp and clear! As I mentioned, when the compositor tried to enlarge the old separation, it was too small for the new design and began to break up.

The image is of **Templo Mayor, Tenochtitlan**. It will be used a bit larger than full page as Chapter Opener in our new edition of *Literatura y Arte* by John G. Copeland, 3rd edition. This is an introductory Spanish textbook. We will send you copies upon publication.

Would you please provide the correct credit for our credit list as well?

As I mentioned, we can either use the 4x5 transparency which I promise to return within 10 days at most, or a 300 dpi hi res file 8x10 inches large. I would need the file or transparency by next Wednesday at the latest. Thank you so much for your cooperation and for allowing us to use your artwork in our textbook gratis.

I look forward to hearing from you.
