Dear Stuart and Scott,

Thank you for a memorable encounter with the extraordinary talents of the Gentling brothers, some of which I knew about and others I experienced for the first time.

Thank you also for the inscribed copy of Of Birds and Texas, which I am enjoying greatly. As someone with deep roots in Erath County, I feel a strong connection to the

scenes from north central Texas -
I drive through Solar often on my
way to Dublin. My family, too,
enjoyed the book page by page
over Christmas.

I look forward to seeing more -
and to following the progress on
your wonderful studio!

Thank you both for
your hospitality.

Sincerely,
Carol (Robbins)
