

JOHN L. PAXTON

February 16, 2004

Dear Scott,

Brent sent me the Fort Worth
Weekly featuring you and Stuart.

We were delighted to learn
of your continued success although
we were not surprised since your
works are unsurpassed. We never tire
of daily viewing your portrait of Annie,
the yellow billed Cuckoo and your
elegant letter with the rotting
apples. We wanted to bequeath our

collection to the Fort Worth Contemporary -

- Museum although they were not interested.

We found another prominent museum that was delighted with the contents. So we are assured that people will enjoy it in the future as we have. Since our paths crossed we have continued to acquire art. Its always refreshing to see something you cannot live without and obtaining it.

Many love, Annie, Bill, Bob and
Steve join me in wishing you
and Stuart the very best always,

Ann
