

PAMELA PITZER WILLEFORD
AMBASSADOR OF THE UNITED STATES OF AMERICA

Dear Stuart and Scott,

I wanted to let you know that, at long last, the artwork arrived here in Bern and is now installed in the residence. It looks wonderful - in particular because of the generosity and talent of the Antlrops! My "music room" displays all of the bird prints, and they are indeed dramatic. And I love

your watercolor, Stuart - not only because
of your execution but also because I know
you and why you painted it.

Anne Johnson was here last week to oversee
the installation, and I hosted a group at a
reception to introduce her and the art. I
hope your ears were burning!

Thank you again for helping to make such
a meaningful and wonderful exhibition for
me -

Fondly,
Pam
